

# Report on Utilization of IVC Website by Potential Students to Locate Distance Education Programs (April 2006 - September 2006)

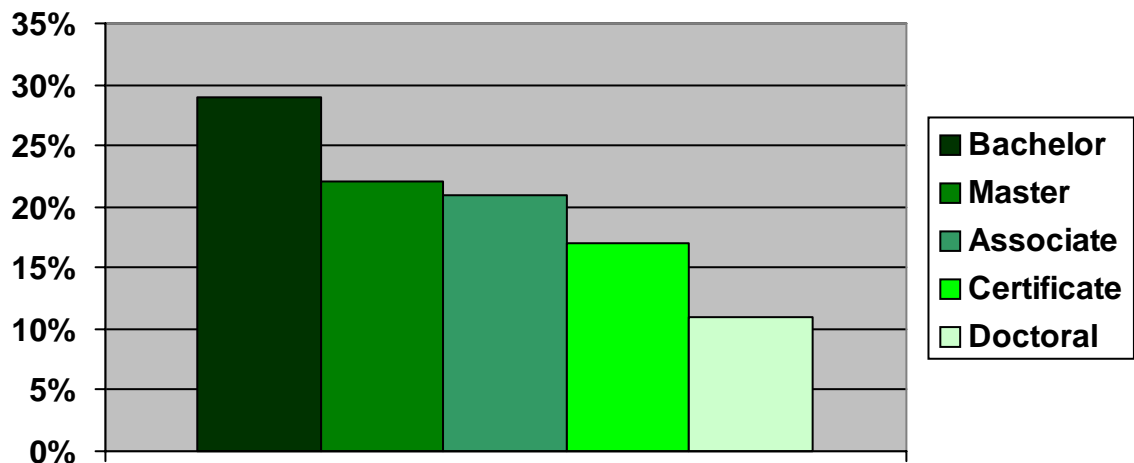

## Illinois Virtual Campus

This report was derived from analysis of the Illinois Virtual Campus (IVC) Web site logs. The number of visits to the description of each program in the IVC catalog was compiled by the WebTrends log analysis software. Visits to the description page indicate interest in that program by potential students.

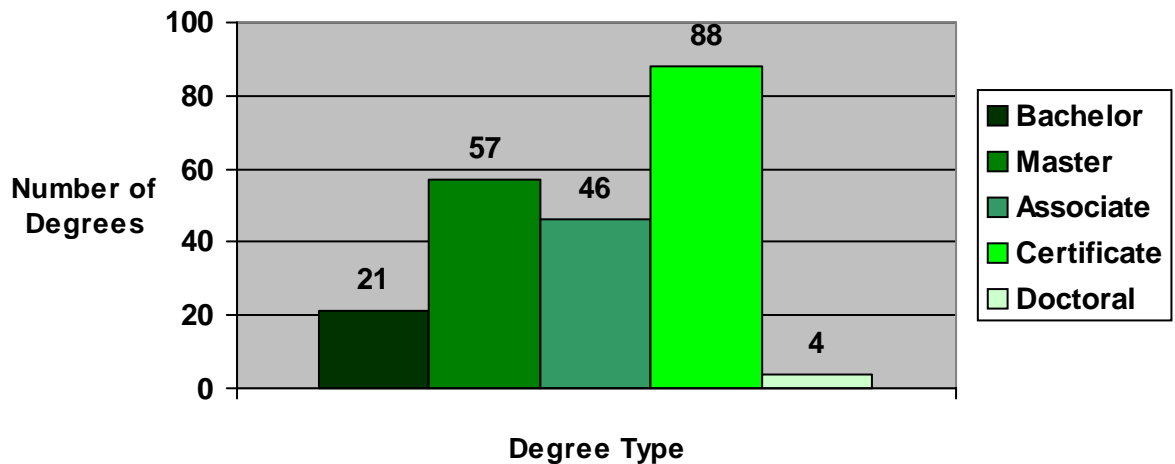

According to ClassesUSA (<http://www.classesusa.com>), a leading online higher education portal, the majority of students looking for online degrees are searching for Bachelor's degrees. The chart below shows the degrees of most interest to ClassesUSA visitors by level.\* The IVC (<http://www.ivc.illinois.edu>) lists over 230 online programs including 21 Bachelor's degrees, 57 Master's degrees, 46 Associate's degrees, 88 Certificate programs, and 4 Doctoral degrees.

Degree Types of Most Interest According to ClassesUSA

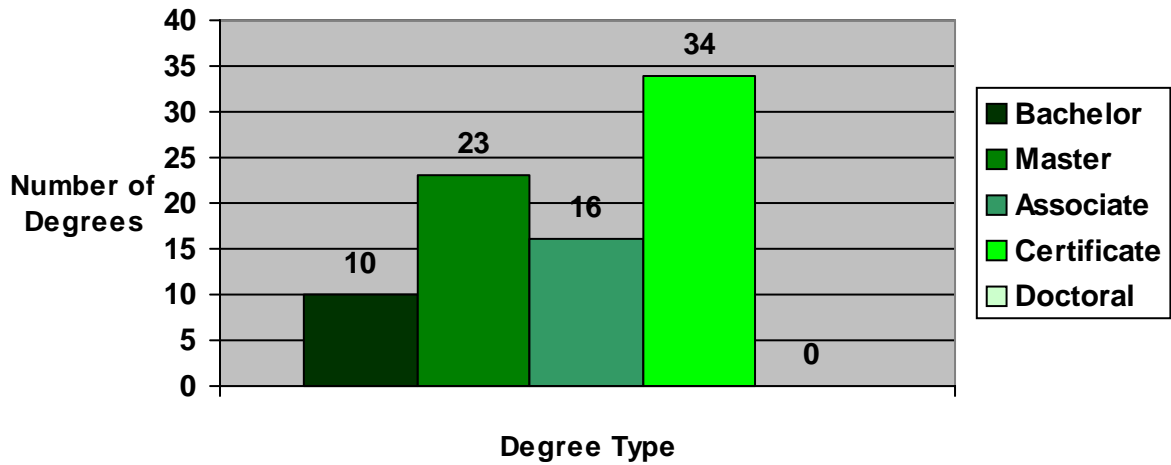

So how does Illinois compare to other states in the number of degrees offered online? A quick Web analysis found three other states that list online the types of degrees available from colleges and universities within that state. The graphs below and on the following page show comparisons of the numbers and types of degree programs in Illinois, Indiana, Ohio and Oklahoma.

Number of Degrees by Degree Type  
Illinois

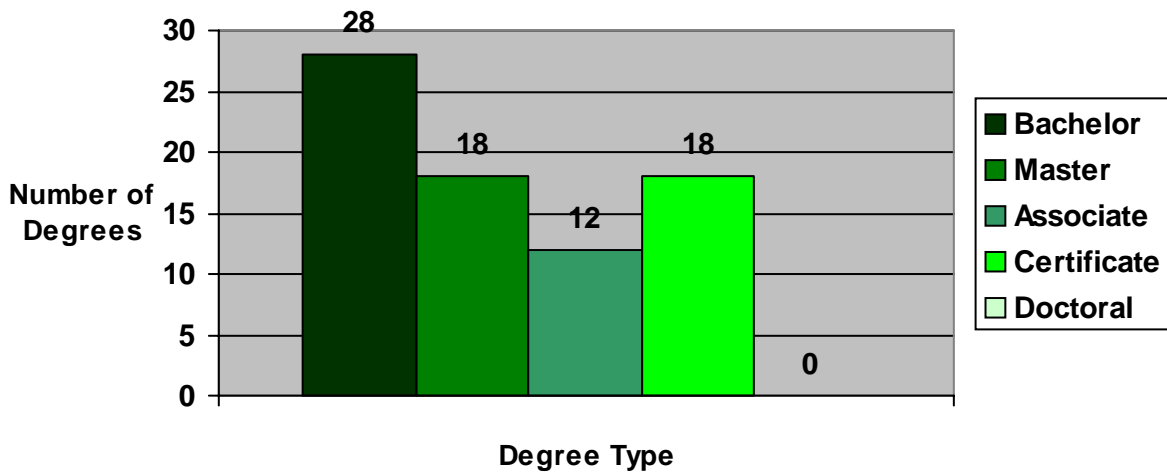

\* Information provided by ClassesUSA

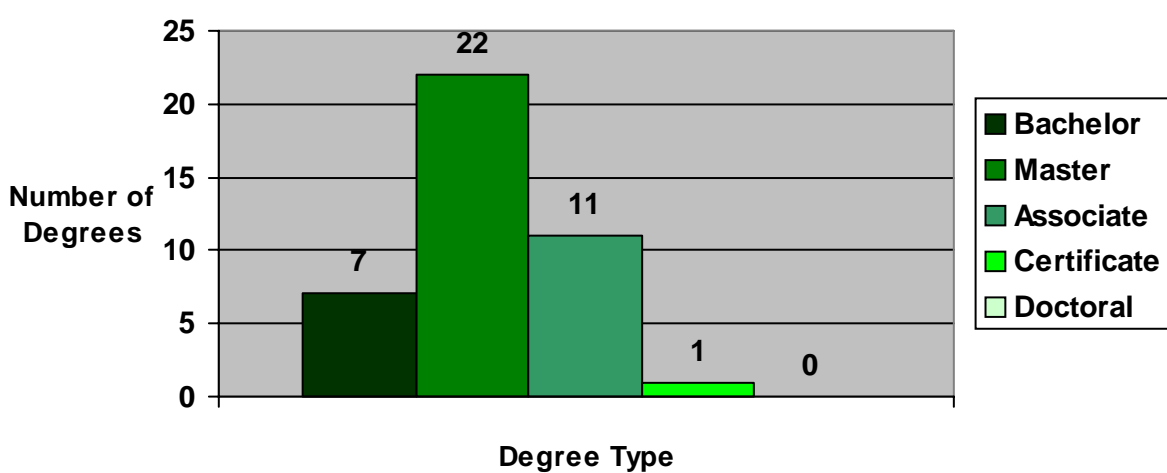

Number of Degrees by Degree Type  
Indiana

Number of Degrees by Degree Type  
Ohio

Number of Degrees by Degree Type  
Oklahoma

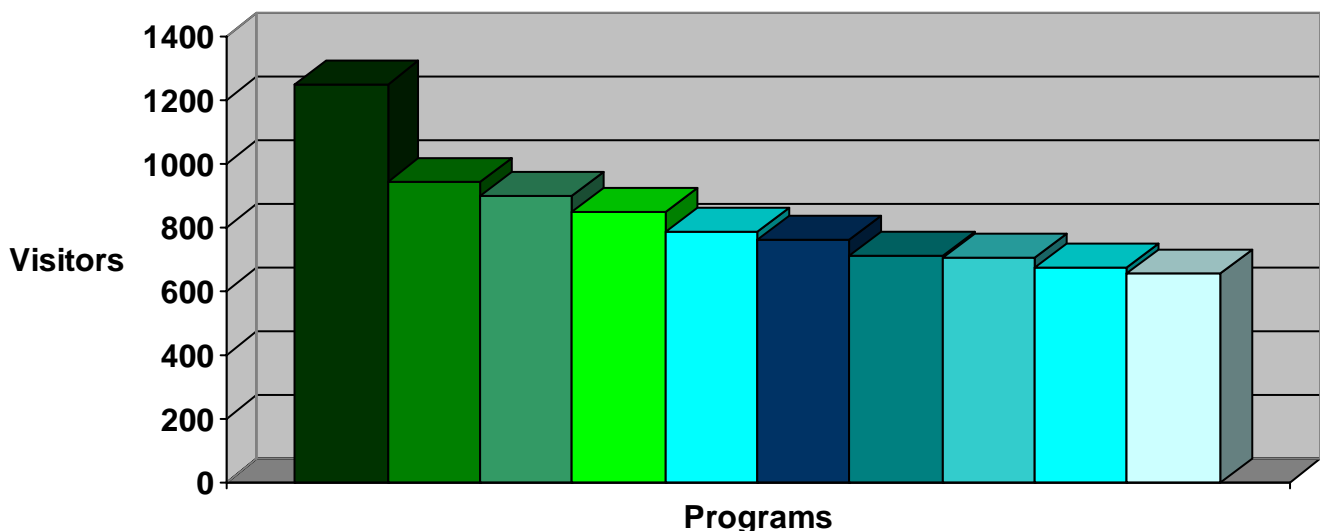

Illinois leads all four states in Associate, Master, Doctoral and Certificate degree programs available. Illinois is the only state of the four to offer online Doctoral degree programs. Illinois offers nearly three times the number of online Associate's degrees available from the other three states. Only Ohio offers more Bachelor's degrees online than Illinois with twenty-eight compared to Illinois' twenty-one.

Further analysis of the IVC Website data shows that seven of the top ten programs accessed by potential students fall within the Bachelor's degree category. This follows the data from ClassesUSA that most students are interested in Bachelor's degrees. It is also of interest that in the IVC catalog, Bachelor's degrees represent the second lowest type of degree available, yet they are the most visited. The top ten programs in order from most to fewest visits are listed below.

1. Online Computer Science Certificate - Loyola University Chicago
2. Bachelor of Arts in Business and Applied Science - Governors State University
3. Doctor of Business Administration - Argosy University
4. Bachelor of Arts in Economics - University of Illinois at Springfield
5. Board of Governors Bachelor of Arts Degree - Governors State University
6. Bachelor of Arts in General Studies - Eastern Illinois University
7. Bachelor of Science in Computer Science - University of Illinois at Springfield
8. Bachelor of Arts in History - University of Illinois at Springfield
9. Bachelor of General Studies in Liberal Arts and Sciences - Northern Illinois University
10. Illinois Teaching Certificate in Secondary Math and Science - DePaul University

The top program in the IVC catalog (Online Computer Science Certificate - Loyola University Chicago) received 1,248 visits and the last program listed received 3 visits. The chart on the following page shows how closely the top ten programs were in the number of visitors.

The Illinois Virtual Campus will continue to monitor the logs of the Website and present information that we feel will be interesting and helpful to institutions offering distance education. If you have any questions or comments about the IVC or the IVC Website, please feel free to contact Dr. Iris Stovall, IVC Director at [istovall@uillinois.edu](mailto:istovall@uillinois.edu) or by phone at 217.244.9531.
